Series EK3 kits make job task analysis and ergonomics analysis simple and accurate, ideal for workplace design, strength assessment, and ergonomic studies. These kits present the ergonomist and other professionals with a simple and economical testing solution. 100 lbF, 200 lbF and 500 lbF capacities are available. The kits consist of all the items listed below:

- **Series 3 digital force gauge**
  - ±0.3% accuracy
  - USB output
  - Compact design, easy to hold
  - Measures in lbF, kgF, or N
  - Peak force capture for push and pull forces
  - Durable construction ensures longevity
  - Battery or AC operation
  - USB output cable and driver

- **Double- and single-handle cradles**
  Contain non-slip rubber handles for various applications.

- **Padded attachments**
  Flat, curved, and square padded attachments mount directly to the force gauge for conducting strength analysis.

- **Snap Hook**
  Features a snap clasp, for added safety. Swiveling action ensures proper alignment.

- **Flat Attachment**
  Round attachment for compression tests.

- **Accessories**
  Cushioned carrying case, AC adapter, battery, user’s manual, and NIST-traceable certificate of calibration.

**MESUR® Lite software**

MESUR® Lite tabulates continuous or single point data from the gauge. One-click export to Excel easily allows for further data manipulation.

**Ordering Information**
